To Tulane, from the people who love it.

To President Fitts and the Board of Tulane University:

We are alumni, students, parents, donors and season ticket holders, proud of Tulane's research, its teaching, its renewal after Katrina, and its place among America's great universities.

Athletic success draws applicants, unites alumni, inspires donors and puts Tulane's name in front of millions. Our College Football Playoff appearance showed what is possible. Without sustained commitment, that success fades quickly.

We ask Tulane to treat athletics as a partner to academics: fund every scholarship the rules allow, invest competitively, set public goals, and pursue a place in a Power 4 conference.

We are ready to help. We ask only for a plan worth supporting.

Respectfully, the undersigned
